Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-24 are pending in this communication filed 07/08/03.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, drawn to a system for facilitating electronic commerce among user, service providers and vendors with each of the users establishing a primary account with the service provider and using a sub-account for purchases, classified in class 705, subclass 39.
 - II. Claims 12-24, drawn to a method for a service provider facilitating electronic commerce among users and providing a website where a vendor may register to sell goods and services to registered user of the service provider where each user can identify items for purchase, classified in class 705, subclass 26.
3. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination Group I, has a system for facilitating electronic commerce among user, service providers and vendors with each of the users establishing a primary account with the service provider and using a sub-account for purchases. The subcombination

Art Unit: 3624

has separate utility such as a method for a service provider facilitating electronic commerce among users and providing a website where a vendor may register to sell goods and services to registered user of the service provider where each user can identify items for purchase. The combination, Group I is a system that can be used for over the Internet in other areas of buying and selling, such as auctions. The subcombination, Group II can be used for advertising merchandise and services for sale.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
